

Year 11 Subject Lines – 2020

It is with great pleasure that we now release subject lines for Year 11 2020. Due to increased enrolments, we are now running more classes than in previous years and multiple classes of popular subjects. This will allow class numbers to remain at an optimum level, while at the same time, allowing us to offer subjects on more lines – giving our students a greater opportunity of being able to do the subjects they want or need to do. Families of current Year 10 students are given this information for further discussion with students these holidays. It is anticipated that Careers Advisor, Mr Mark Taylor, will begin meeting with all students to discuss their choices from the beginning of Week 2 Term 4 (parents are invited to be part of that discussion if they wish via phone or in person).

Final Subject Selections for Year 11 2018 students

- Students will be sent an email in the first week of Term 4 that will give them an access code to enter their final selections for 2020. We ask that families speak with their child to gain access to this link or contact Vickey O'Brien if they need to confirm what students have submitted. This will not be the last time a parent/carer is able to override their child's choices.
- Unlike the last survey, students will now choose their first 12-13 units in preferential order and four units of reserve subjects that may be used in the rare circumstance that their first preferences cannot be accommodated. Students may not receive their preferred subjects if classes are full or if students do not meet prerequisite requirements (eg. Languages or Extension English/Maths). First preferences for subjects will be given to students who had initially chosen that subject in the initial survey conducted early in Term 3, who have been studying it in 2019 or those who are approaching their school work with more diligence.
- Please note that the lines that are published below have been based on the best solution for the students as a whole. No subjects will be moved from the lines published below.
- Students choosing Maths Ext 1 must also choose Mathematics Advanced = 3 units
- Students choosing English Ext 1 must also choose English Advanced = 3 units
- VET may run continue well beyond normal school hours (often finishing between 5pm and, in the case of Hospitality, later than that).
- Places in VET classes are limited (12 or less) and students in the Trade Program are prioritised.
- In lines 2 and 7 subjects are running at the same time (except for the one's that are divided by the vertical line – where they only occupy 5 periods each of the timetable). So it is possible to choose both Maths Ext 1 and English Ext 1

Important notes to remember

- Each 2 Unit subject equates to 10 periods of face-to-face teaching per two week cycle. The Extension subjects in all areas are 1 Unit subjects and equate to 5 periods per cycle.
- Classes in English Advanced, English Standard, Mathematics Advanced and Mathematics Standard will be streamed on academic ability.
- Students are reminded that only one VET subject is able to contribute towards an ATAR and this no longer includes Metal & Engineering.
- Students and families will receive an email confirming their classes for 2020 during the last weeks of Term 4. Mrs Wark will notify parents if she believes there are any concerns regarding choices.
- Trade students are to select two VET subjects as well as English Studies (TRADE), Mathematics Standard (TRADE), Industry Based Learning (Trade), Work Placement (TRADE) and one subject from Line 1 (to be studied in year 11 only)

Line 1	Line 2		Line 3	Line 4	Line 5	Line 6	Line 7		Other subjects
Economics	Agriculture		Biology	English Advanced	Mathematics Advanced	Ancient History	Biology		Additional subjects may be available through correspondence by negotiation with Mrs Wark. Preference will be given to language students who demonstrate the ability to study independently.
French Continuers (11/12 combined class)	Business Studies		Chemistry	English Standard	Mathematics Standard	Drama			
Industrial Tech Timber	Construction (VET)		Design & Technology	English Studies (TRADE only)	Mathematics Standard (TRADE only)	Engineering Studies			
Modern History	Geography		Legal Studies	<i>It is anticipated that there will be 5 English classes in 2020</i>	<i>It is anticipated that there will be 5 Maths classes in 2020</i>	Japanese Beginners (combined 11/12 class)			
Visual Arts	Metal & Engineering (VET no ATAR)		Music 1			Modern History			
	Maths Ext 1	English Ext 1	Industry Based Learning (TRADE) only			Software & Design			
						Hospitality (VET-PLC) #	Primary Industries (VET)		

Any questions should be directed to a child's advisor WHEN SCHOOL RETURNS or by contacting Mrs O'Brien so she can direct you to the best person to answer your questions.
