

### Start small & grow!

It started off with a group of children playing chanter, then a drumming club ... then we thought ... "we could have a pipeband here!"

Fiona McLean, Parent

See our short film HATS OFF TO THE PARENTS on our You Tube channel

"A pipe band gives everybody that sense of belonging. All these kids from all these different backgrounds, playing the Scottish national instrument ... I think that's massive."

Ian Watson, piping tutor

### Piping opens doors!

You'll give your boy or girl a lifelong skill that will help them to develop new friendships, extend their networks ... and even travel the world

Paul White, Parent

## The Armidale School, Fridays from 1pm

**Chanter Chatter** gives children the opportunity to learn the Practice Chanter. The Practice Chanter is what you learn on, before progressing onto the Bagpipes.

People associate the bagpipes with Scotland, and although it is their National instrument early records show that it more than likely originated in Egypt. When Caesar and Mark Anthony visited Cleopatra, they took the instrument back to Rome. The Romans in turn brought it to Brittany and other parts of the World as it was the instrument of their Infantry. You do not have to be Scottish to learn or wish to play the bagpipes. It can be played as a solo instrument, in a pipe band or even a rock & Roll band like ACDC or with John Farnham.

Learning a musical instrument will give your child the chance to be part of a youth group where they will learn to work in a team environment, the focus and dedication needed to reach a goal, and we endeavour to encourage self discipline and artistic creation.

Through **ChanterChatter** we teach all participants to read music notation and duration. It is a proven fact that children who play a musical instrument are normally better at Mathematics and school work in general. The dedication and self motivation it takes to learn an instrument may well help define the adult you wish your child to become.

What are the costs: A practice chanter and reed \$95. Fortnightly One to One Lesson \$55 + 1 A4 folder with clear plastic sleeves. The off week is done with a SKYPE lesson at \$33. (Average is \$44 per week) It is advantageous to purchase a Millennium Method on-line tutor to use at home, these are \$99 for a years subscription. This ensures your child always practices perfect and no time at the next lessons is lost "back-tracking" over work they have misinterpreted.

### [www.sydneychoolofpipinganddrumming.com.au](http://www.sydneychoolofpipinganddrumming.com.au)

For students who wish to participate in a band, we have already had a few TAS Pipe band performances at Anzac Day and the Passing Out parade. Many schools around the country have pipe bands, Scots College Sydney, Know Grammar, PLC - Sydney, Melbourne and Perth. Scotch College Melbourne, Hailbury College Melbourne, SCotch College Perth, Scots School Albury, Bathurst and Warick Qld.

These bands have performed overseas and some even in the Edinburgh Military Tattoo. So who knows where your child from PLC, Armidale may end performing.
