

Year 11 Subject Lines – 2022

It is with great pleasure that we now release subject lines for Year 11 2022. Families of current Year 10 students are given this information for further discussion with students over the remainder of this term. Any questions regarding these subject selections should initially be directed to your child's advisor. Parents may also the Director of Studies (dos@as.edu.au) for further advice on who is the best person to direct your question to. **These choices are due by the end of Week 1, Term 4.**

Final Subject Selections for Year 11 2022 students

- Students will be sent an email at the beginning of Week 8, Term 3 that will give them an access code to enter their final selections for 2022. We ask that families speak with their child to gain access to this link or contact Vickey O'Brien if they need to confirm what students have submitted. This will not be the last time a parent/carer is able to override their child's choices.
- Unlike the last survey, students will now choose their first 12-13 units in preferential order and four units of reserve subjects that may be used in the rare circumstance that their first preferences cannot be accommodated. Students may not receive their preferred subjects if classes are full or if students do not meet prerequisite requirements (eg. Languages or Extension English/Maths). First preferences for subjects will be given to students who had initially chosen that subject in the initial survey conducted early in Term 3 (this is particularly the case for Hospitality), who have been studying it in 2021 or those who are approaching their school work with more diligence.
- Please note that the lines that are published below have been based on the best solution for the students as a whole. No subjects will be moved from the lines published below.
- Students choosing Maths Ext 1 must also choose Mathematics Advanced = 3 units
- Students choosing English Ext 1 must also choose English Advanced = 3 units
- VET may run continue well beyond normal school hours (often finishing between 5pm and, in the case of Hospitality, later than that).
- Places in VET classes are limited (12 or less) and students in the Trade Program are prioritised.

Important notes to remember

- Each 2 Unit subject equates to 10 periods of face-to-face teaching per two week cycle. The Extension subjects in all areas are 1 Unit subjects and equate to 5 periods per cycle.
- Classes in English Advanced, English Standard, Mathematics Advanced and Mathematics Standard will be streamed on academic ability.
- Students are reminded that only one VET subject is able to contribute towards an ATAR and this no longer includes Metal & Engineering.
- Students and families will receive an email confirming their classes for 2022 during Term 4. Mr Polson will notify parents if he believes there are any concerns regarding choices.
- Trade students are to select two VET subjects (one from Line 3 and one from Line 7) as well as English Studies (TRADE), Mathematics Standard (TRADE), Industry Based Learning (Trade), Work Placement (TRADE) and one subject from Line 1 (to be studied in year 11 only)

Line 1	Line 2	Line 3	Line 4	Line 5	Line 6	Line 7	Other subjects
Ancient History	Biology	Agriculture	English Advanced	Mathematics Advanced	Biology	Business Studies	Additional subjects may be available through correspondence by negotiation with Mr Polson. Preference will be given to language students who demonstrate the ability to study independently.
